Coach Pang has a lot of hobbies. One of them is playing with "tag soup". He decides to rewrite the method to prettify HTML documents according to his personal preference. But Coach Pang is always very busy, so he gives this task to you. Considering that you do not know anything about "tag soup" or Beautiful Soup, Coach Pang kindly left some information with you:

In Web development, "tag soup" refers to formatted markup written for a web page that is very messy HTML code.

Beautiful Soup is a library for parsing HTML documents (including "tag soup"). It parses "tag soup" into regular HTML documents, and creates parse trees for the parsed pages.

Beautiful Soup is a library for parsing HTML documents (including "tag soup"). It parses "tag soup" into regular HTML documents, and creates parse trees for the parsed pages.

Beautiful Soup is a library for parsing HTML documents (including "tag soup"). It parses "tag soup" into regular HTML documents, and creates parse trees for the parsed pages.

Beautiful Soup is a library for parsing HTML documents (including "tag soup"). It parses "tag soup" into regular HTML documents, and creates parse trees for the parsed pages.
